

Born in a Place

Turn off the switch and move to a random place that calls you
From the biggest crowd we all disappear

Don't say you're leaving when I can't get you out of my head
I spend my daze just dreaming and trying to remember what has been said

Run to your arms will you hold me?
I'm lost in a world can you find me?

One by one all the bricks came tumbling down
From the blackest soul comes the happy heart

Don't say you're leaving when I can't get you out of my head
I spend my daze just dreaming and trying to remember what has been said

Born in a place if you want to
Born in a place if you want to
Run to your arms will you hold me?
I'm lost in a world can you find me?

Yeah!

Don't say you're leaving when I can't get you out of my head
I spend my daze just dreaming and trying to remember what has been said

Born in a place if you want to
Born in a place if you want to
Run to your arms will you hold me?
I'm lost in a world can you find me?

We all disappear!
