

Mm mm mm ah

I believe in no possessions
I believe in solitude
From everything that is broken or breaks
Something better will return

It goes mm mm mm ah

It will not let me tire
It will not let me love
From the first moment that I touched your hair
This love was dead

It goes mm mm mm ah

I am the one who's gonna take you to the promised-land
I am the one who's gonna take you to the promised-land
I am the one who's gonna take you to the promised-land
I am the one who's gonna take you to the promised-land

It goes mm mm mm ah

It goes
